SEDA HoseGun HD S-52459

HoseGun HD Fluid Evacuation tool

+ Your benefits:

- ✓ Quick & easy handling
- ✓ Adapted for copper & hydraulic hoses
- ✓ Reinforced feed
- ✓ Purge valve opens & closes automatically
- ✓ No further equipment required

“The SEDA HoseGun HD is a good example for product development resulted by the feedback and needs of our customers.”

Andreas Obinger,
Technical Development

To remove hydraulic oil from hoses or pipes effectively, a powerful tool is needed. The SEDA HoseGun HD is the perfect solution.

It is often necessary to evacuate liquids from a closed system or circuit without any leaking to protect the environment.

Especially suited for tough hydraulic hoses, piercing the system and extraction of fluids with the SEDA HoseGun HD are a quick and easy method.

In conjunction with a vacuum unit and compressed air, the SEDA HoseGun HD works with a manual feed. The retracts pneumatically and the vacuum outlet at the punch tip closes automatically.

TECHNICAL DETAILS

Air requirements:	8 – 10 bar
Consumption drilling process:	800 l/min
Consumption suction process:	150 l/min
Drilling time:	Depending on material thickness
Suction power:	0,5 l/min
Weight drilling unit:	4,5 kg
Weight impulse unit:	7,5 kg
Hose length:	3,5 m
