

World leader in vehicle
de-pollution technology

SEDA TruckStation ED A-51072

Truck
de-pollution system

Your benefits:

- ✓ Powerful and robust
- ✓ Sophisticated technology
- ✓ Very flexible due to extra long and strong hoses
- ✓ Operational and simple maintenance
- ✓ Proven SEDA Quality
- ✓ Easy handling

Fully equipped with powerful pumps, special hoses and supplies, the SEDA TruckStation ED meets the special requirements for the de-pollution of trucks.

With the new TruckStation SEDA has set new standards in the truck recycling market. Based on the very successful SEDA EasyDrain the TruckStation ED was developed for the special needs of truck de-pollution. Especially the de-pollution of ELVs in colder regions was a main focus while developing this system.

Hoses 8 meter long are fixed and perfectly situated underneath the station with robust hose reels. The length guarantees greater flexibility of operation in terms of space.

Special features of the TruckStations are an additional pump for waste oil, a big suction lance for suction of hydraulic oil and extra large oil funnel for engine and gearbox oil.

„The new truck solution is another example how SEDA reacts on customers needs.“

Peter Kaltenegger
SEDA Key Account Manager

Operation fluids:

- Petrol/Diesel
- Waste oil (Engine/Gearbox oil)
- Hydraulic oil
- Coolant/Washer fluid
- Brake fluid

World leader in vehicle
de-pollution technology

SEDA TruckStation ED

A-51072

Truck de-pollution system

The mobile TankDrillingMachine, the large waste oil funnel and big suction lances in combination with the long hoses makes the de-pollution of, even very big, trucks simple.

The station can be tailored to everyone's individual needs and requirements as example without the need of an lifting ramp.

Funnel & suction hose
switch

Extra pump for waste oil

Hose reel & stop

Extra long & strong hoses

+ Your benefits:

App. 20 minutes
of de-pollution time
per truck

TECHNICAL DETAILS

Air pressure: 8,5 bar – 1.100 l/min
Air consumpt.: 6.000 l/truck
Pollution time: app. 20 min/truck*
Suction power: Petrol/Diesel: 14 l/min
 Waste oil: 12 l/min
 Hydraulic oil: 10 l/min
 Coolant fluid: 8 l/min
 Washer fluid: 8 l/min
 Brake fluid: 3 l/min
Dimension: 2,2 x 0,5 x 1,8 m
Required space: 15,0 x 4,0 x 6,0 m

ORDER INFORMATION

A-51072 SEDA TruckStation ED

Note: Provided that a truck ramp with a height of 165 to 195 cm is installed.

Additional device:
A-51072-EDG TruckStation ED-G
 (use without lifting ramp)

* It depends on the truck setup and in-plant flow of operations.
