## SEDA Catalytic Cutter

Special tools

### Hydraulic Cutting Tool

The catalyst converter is regarded as the most profitable part of an end-of-life vehicle. The SEDA CatalyticCutter removes them in just a few seconds without requiring great strength and without damaging it.

The SEDA Catalytic Cutters are the optimal solutions for removing catalysts and exhaust systems. Weber Hydraulik have improved their devices for the specific requirements of recycling companies in conjunction with SEDA offering many sizes and solutions for today's operations.

Our optional **mobile stand 360°** with catalytic converter catchment tray enables easy transport of the cutter and the motor in order to facilitate the usage significantly and prevent any injuries or damages!

Battery version for RSU160, 180 and 210 available - further details on request.

Mobile Stand 360° available as battery and cable version. S-50354-17

# SEDA Catalytic Cutter

Special tools

## Hydraulic Cutting Tool

### Your benefits:

- Compact design
- Strong cutting power
- Optimized cutter profile with special cutting notches
- Easy to replace blades
- Battery powered Cutters working on standard M28 Milwaukee batteries
- (Optional) mobile stand available

- New Xtreme cutter technology
- Low cutting strain due to blade development and design
- Clasps the material to cut
- Shorter blades for better maneuverability

### Easy blade replacement for RSU 180 / RSU210
