

World leader in vehicle
de-pollution technology

SEDA HV BAT-Box N-527793

Safe Storage & Transport of (Non-)Critical Li-ion Batteries

SEDA HV BAT-Box is a safe transport and storage box with an integrated filter system for critical Lithium-ion batteries.

Your benefits:

- BAM-certification, suitable for ADR transporting
- designed for the biggest electric vehicle HV-batteries currently available on the market
- neutralization of the emerging harmful fumes
- absorption and dissipation of the thermal energy
- prevention of fluid spill, restraint of fire, no blasted pieces
- no dusting absorbing fillers
- extendable runway
- stackable and lockable
- **can be transported on a trailer or 5.5 ton truck**
- the remaining cubature is filled with cushions

SEDA HV BAT-Box is BAM certified, assigned for ADR transporting of critical HV-batteries, capacity up to 120 kW. A Hörbiger-valve is used to relieve pressure. Even the largest electric vehicle batteries currently available on the market can be easily loaded sideways into the box thanks to its extendable runway.

TECHNICAL DETAILS

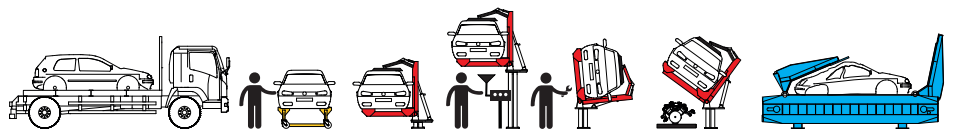

Inner dimensions: 2.654 x 1.735 x 970 mm
Outer dimensions: 3.192 x 2.121 x 1.567 mm
Permitted energy content: 98,48 kWh
When opened: 3.355 x 2.121 x 1.567 mm
Weight: 2.235 kg
Max. loading weight: 1,000 kg
