Airbag Neutralization Cabinet

Neutralized
airbag

The SEDA ANC makes safe deployment of dismantled airbags possible. The Neutralization Cabin now makes it possible to neutralize restraint systems (airbags and seatbelt tensioners) with reduced noise levels and without particulate residue. All electronics are compatible with the latest static sensitive airbags and the cable connectors are very well protected.

Neutralized
belt tensioners

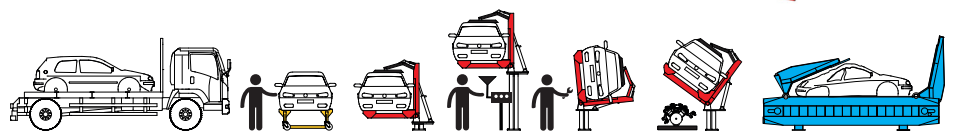

Your benefits:

- Safe neutralizing
- Dustfree operation
- Door with safety lock
- Easy to operate
- Connector for up to 3 belt tensioners
- Integrated counter
- Filtered ventilation

Optionally, an antistatic set for increased safety is available.
